Every Day Nomination Day In Big Prize Race

Send in your nomination today—enter your name or that of a friend. It costs nothing to enter or try for any prize and every active candidate is guaranteed a prize. Don't let this unusual opportunity slip by without making an effort to take advantage of it. Hundreds of dollars in valuable prizes can be won for a little effort.

Nominations are still open in the Advocate's Mammoth Automobile and Prize Campaign and a person who has the average number of acquaintances can make her spare time pay big by entering the big race at once. While nominations will be accepted up to the last week of the campaign and some of the ultimate winners may not enter for some time yet, those who do get their campaigns started without further delay will have the best chance to win a big prize.

The Mt. Sterling Advocate wants you to participate in this big campaign—wants you to share in the gigantic gift distribution. It is giving you an opportunity which is undoubtedly the chance of a lifetime—now you have but to take advantage of it.

The big prize competition is the most liberal proposition ever offered by a weekly paper in this section of the State. Yet these costly prizes are actually going begging for lack of active workers to compete for them. That's rather a strange situation, isn't it, but never the less, it's a fact and some live person—you, if you will—can make your spare time prove mighty profitable to you if you will enter and make an active race. So far, we have more prizes than active workers and about all the votes received by the majority of the candidates thus far have been the coupons which have been clipped from the paper and sent in for them by the subscribers. Of course, these coupons count in a way but it should be realized that subscriptions bring the most votes.

The real purpose of the campaign is the securing of new subscriptions and renewals and to those candidates who will start their campaign without delay, the big gift enterprise offers an unusual and splendid opportunity to secure an automobile or other valuable premium with

a very little effort.

One splendid feature of this big campaign is that there will be no losers—when you start in, you are absolutely certain of winning some prize. Every candidate who enters and makes an active race is positively guaranteed a cash prize or a regular prize, depending on the effort made. Those who do not win one of the ten regular prizes will be paid a cash commission of ten percent of the subscriptions they turn in and as this means fifteen cents on each year's subscription, every candidate, even tho she does not win one of the regular prizes, will be well repaid for her efforts. You simply cannot lose in this big campaign—and you can make your spare time prove mighty profitable to you if you make an active race. It is your opportunity to secure prizes worth hundreds of dollars for a few week's spare time effort without one cent of cost to you.

If you have not already entered, fill in the nomination blank found in this issue and bring or send it to the Campaign Manager, care of the Advocate, at once. Supplies and instructions will then be sent the prospective candidate and every effort will be made to assist you in your campaign.

If your name now appears on the list but you have not as yet, commenced your campaign, you cannot use your time to better advantage than to make an active race. We take all the risk—you have everything to win and nothing to lose as you are positively guaranteed against loss. It costs nothing to enter or try for any of the prizes and the campaign will not interfere with your other work or play.

The hardest part about the big campaign is in getting started, but after you do and your friends learn that you intend to make an active race, you will find that they will be glad to give you liberal support and you will have very little trouble in

getting a great many votes and subscriptions.

The nomination blank gives you 1000 Free Votes to start and a new subscription for one year now brings 5400 votes while a renewal for one year brings 2700 votes. Under this schedule, votes on subscriptions count up very rapidly and a new candidate can soon bring her standard right up among the leaders.

Remember, there are ten regular prizes to be awarded and every one of these prizes are well worth striving for. Yet, from present indications, they are going to be picked up mighty easily. If you are an ambitious person and would like an automobile or other nice prize, don't let this unusual opportunity pass by but enter the big race at once.

The First Grand Prize is a Five Passenger Ford Touring Car, valued at \$490.00, and was purchased especially for this campaign from the Strother Motors Co. It will be awarded to the contestant who secures the most votes.

The Second Grand Prize is a beautiful Library Suite and will be awarded to the contestant who secures the second largest number of votes. It was purchased from W. A. Sutton & Son and will soon be on display at their store.

The 42-piece Chests of "1817" Rogers Silverware, Rings and Watches were purchased from Bryan & Robinson, the well known jewelers, and will also soon be placed on display at their store. These are known as district prizes and for these prizes, contestants need only compete against those in their own districts.

On the first three subscriptions—either new or renewals—turned in by beginners before May 21st, they will be entitled to three Special Ballots good for 10,000 Extra Votes in addition to the usual number of votes given. Any one can easily get three subscriptions in a short time and these special ballots will give you a good start in the big race.

It does not take much effort to take your place among the leaders at the present time. Many of the candidates who are right up near the top in today's list have secured only one subscriber so far. A renewal for one year brings 2700 regular votes and a Special Ballot for 10,000 extra votes if turned in before May 21st. Hence, with your nomination blank bringing 1000 free votes, together with the 12,700 votes you would receive on a renewal would make your standing 13,700 votes which shows how easy it is for a new candidate to take her place among the leaders.

The big triple vote offer, whereby you get three times the usual number of votes on all subscriptions, will be in force until May 21st. See the schedule of votes below and remember you get three times this number on all subscriptions.

Schedule of Votes

	Old	New
10 yrs.	\$15.00.....	14,200.....28,400

BIG DRIVE ON FOR NEXT WEEK

Everybody Urged to Go to the Public Speaking at the Tab Theatre Sunday.

There will be a meeting of the Red Cross at the Tab Theatre on Sunday afternoon promptly at two thirty o'clock at which time the Hon. W. D. Cochran, of Maysville, Ky., will address the people on the subject of the Red Cross, its needs and its work. Mr. Cochran is a prominent lawyer of Maysville and has the reputation of being an orator of superior rank. The committee earnestly requests every man and woman of Montgomery county to be present and hear Mr. Cochran discuss the noble work that the Red Cross is now doing for our boys "over there."

There will be another meeting at seven thirty p. m. at the Tab Theatre for the public to hear Captain Walter Kilroy Harris, M. C. J. R. G. S., New South Wales, speak on the work of the Red Cross as he saw it in the trenches in France. Captain Harris has been awarded a second bar to the military cross, and also the distinguished service order. Captain Harris is a company commander in the Drake Battalion of the Royal Naval Division. Only two other officers hold these four decorations which were gazetted as follows: M. C., January 26, 1917; first bar, July 18, 1917; second bar, January 18, 1918; D. A. O., March 4, 1918. Captain Harris has been wounded on three separate occasions and once slightly gassed. He is the most interesting talker and has something to talk about. If you miss hearing Captain Harris Sunday night at the Tab Theatre at 7:30 o'clock you will miss hearing a most interesting account of the world war.

The ministers of Mt. Sterling have graciously adjourned their services for this coming Sunday night in order that the people may have an opportunity to hear these noted speakers especially Captain Harris. No collection will be taken at either of these meetings. Your committee has brought these speakers here for the purpose of letting the people know just how great is the need of the Red Cross and how great a service the Red Cross is rendering to the nation and of what great benefit it is to the boys who are in the trenches. On Monday morning the twentieth of May you will be called upon by solicitors chosen by your committee to help raise \$10,000 as Montgomery county's quota in the second drive. Let us make up our minds that we are today fighting a battle for civilization and righteousness and that the world may be made fit for human beings to live in. The question before us, "is our money and our life dearer to us than our liberty?" As for me it is Liberty or Death. And I believe that I speak the sentiment of every true American.

Respectfully,
T. B. MILL, Chairman.

WORTHY WOMAN ANSWERS CALL

Mrs. Elizabeth Katherine Richardson Dies After Illness of Many Months.

Surrounded by those she loved and who loved her, Mrs. Elizabeth Katherine Richardson, beloved wife of Mr. John F. Richardson, died Tuesday evening at the home of her son, Mr. A. C. Richardson. Mrs. Richardson had been in poor health for about a year but a few weeks ago her condition became serious and those near and dear to her knew that the end was near. A woman of splendid Christian character, lovely demeanor and with the gentleness only possessed by those who know and love our Savior, she had her place in the hearts of countless friends, and the aching void created by her death can never be filled. Her's was a life well spent, without show or without the hope of reward or favor, she did what she could always to relieve those less fortunate than she, and when God's finger touched her, and called her home, we are sure she was received into that Heavenly Kingdom with "Well Done, Thou Good and Faithful Servant, Enter Thou Into Thy Reward." The writer will not attempt with mere words to alleviate the sorrow of the bereaved family but will only say that God in His infinite wisdom and mercy will in His own good time give them surcease from their sorrow. Mrs. Richardson was 57 years of age and had been a member of the Methodist church for many years. She was a daughter of Mr. W. Q. Stephens.

Besides her husband, she is survived by five children, Mrs. Lewis Myers, Mrs. Howe Thompson, and Messrs. A. C. Richardson and Adlai Richardson, of this county, and Mrs. Virgil Browning, of Clark county. Three brothers, Charles B. Stephens, of this city; W. Q. Stephens, Jr., of Shreveport, La.; John Stephens, of Charleston, Illinois, and one sister, Mrs. William Taylor, of Bushon, Ill., also survive. Funeral services were conducted Thursday afternoon by Rev. E. L. Southgate, assisted by Rev. B. W. Trimble, with burial in Macphelah cemetery.

REMOND & ENOCH

RE-DRYING PLANT MAY BE BUILT

Farmers and Business Men Should Get Behind Movement to Build Big Plant.

The farmers and business men of the city and county should get behind the project of building a large tobacco re-drying plant in this city. Those in charge of the movement have had a proposition made to them by one of the big tobacco concerns to lease the plant for a term of years and are willing to pay a splendid percentage on the investment. A plant of this character would go a long way toward relieving the congestion that annually occurs during the tobacco selling period here. The tobacco market is one of the biggest assets our city has and we feel sure that the people will take hold of this proposition and push it through to a successful conclusion.

HIGH SCHOOL EXERCISES

Rev. Clyde Darsie, pastor of the Christian church, preached the Baccalaureate sermon to the graduating class of the Montgomery County High School Sunday evening. The full class was in attendance. The address of Rev. Darsie was a strong appeal for higher ideals, loftier purposes and clean lives, and the speaker cited the life of President Wilson as an example to follow. The class day exercises were held this morning in the High School chapel and a most interesting program was enjoyed by a large crowd.

Twelve Tire Tests No. 2

This series of twelve tests is designed to take the uncertainty out of tire-buying.

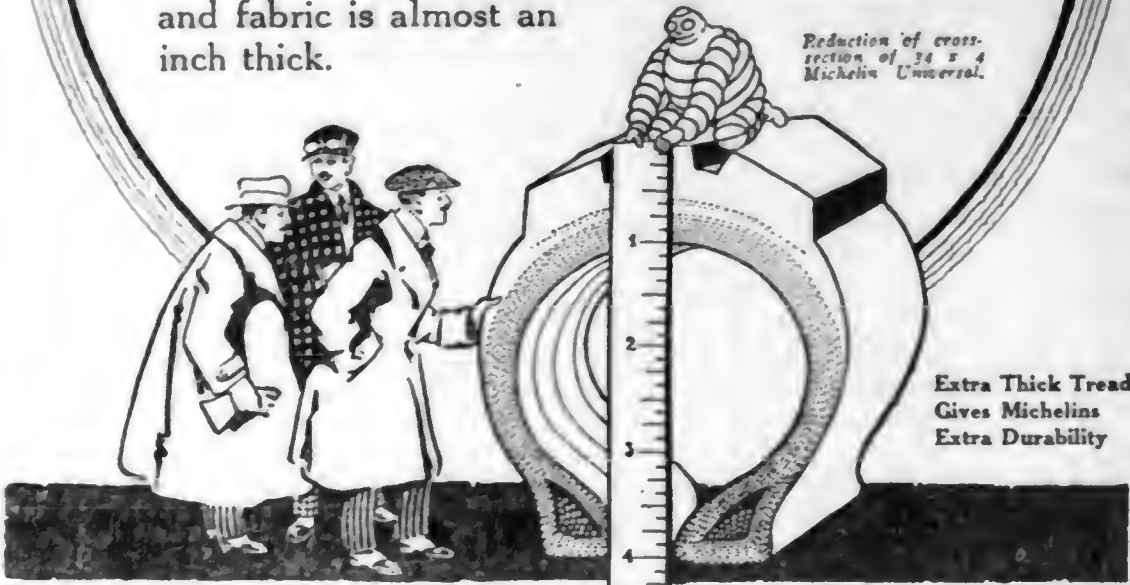

Thickness

Here is another effective way to measure the quantity of materials used—and that is to measure the actual thickness of tread.

You will find that here again the Michelin Universal has a big advantage. In the 34 x 4 size, for example, the solid though flexible mass of wear-resisting rubber and fabric is almost an inch thick.

Though moderate in price, Michels are unsurpassed in durability even by the most expensive tires.

WHEAT CROP PROMISING

Kentucky farmers now have a prospect for 13,381,000 bushels of wheat this year, compared to 9,000,000 bushels last year, unless bad weather or crop pests should seriously interfere. Wheat now looks fine throughout the State and farmers report a condition of 101 per cent on the basis of 100 per cent representing what they would have expected under reasonable favorable conditions. The condition May 1, 1917 was 69 per cent.

There are 933,000 acres of wheat in Kentucky this spring, after allowing 2 per cent off for abandonment. Last year 750,000 acres remained for harvest in this State after 16 per cent of the crop had to be abandoned.

The United States winter wheat crop is now estimated at 36,392,000 acres compared to 27,430,000 acres May 1, 1917. The condition May 1 this year is 86 per cent compared to 73.2 per cent May 1, 1917. The United States production of winter wheat now promises to be 572,539,000 bushels, unless unfavorable conditions develop hereafter. Last year the United States production of winter wheat was 418,070,000 bushels, after 31 per cent of the crop had to be abandoned because of bad condition, while abandonment this spring is only 13.7 per cent of the acreage sown.

Production of rye in the United States promises to be a new high record this year, with 82,629,000 bushels compared to 60,145,000 bushels in 1917. Kentucky has also increased her acreage of rye and has a fine prospect for a good crop. The acreage in this State is 33,000 acres compared to 30,000 last year and the condition of the crop is 99 per cent compared to 86 per cent May 1 last year.

Despite shortage of labor so much discussed by Kentucky farmers they say that they are ahead of the season with their work and report that 75 per cent of their plowing and about 58 per cent of planting done by May this spring compared to 70 per cent of plowing and 14 per cent of planting usually finished by May 1.

NEW RESIDENCES

W. Taylor Fitzpatrick, Jr., began the erection of two modern dwellings on his lots on High Street and Samuels Avenue and the work will be rapidly pushed to completion. UNSHAKEN TESTIMONY

Time is the test of truth. And Doan's Kidney Pills have stood the test in Mt. Sterling. No. Mt. Sterling resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

Mrs. G. B. Nelson, 43 Richmond street, Mt. Sterling, says: "Doan's Kidney Pills have been of great benefit to me and if I hadn't used them I would be still in misery today. I suffered with kidney trouble and my back ached so it nearly drove me wild. My kidneys didn't act right at all. I felt tired and worn out from the slightest work and the least thing would worry me and bring on nervous headaches. Doan's Kidney Pills made me feel like a different person." Statement given February 21, 1908).

On January 6, 1917, Mrs. Nelson said: "I have had little need of a kidney medicine since Doan's Kidney Pills cured me some years ago. They have never failed to help me when I have needed a kidney medicine."

REPORT OF HEALTH AND WELFARE LEAGUE

The Montgomery County Health and Welfare League met in regular session last week. The new nurse, Mrs. Mary E. Wolcott, was present and reported that she was getting acquainted, and the indications are that she will do good work in the line of Health and Welfare in this community. She was instructed to confer with City officials and inspect the cleaning of resident streets, back yards, etc., and also order fly traps put at all business houses. The following is her report for the month of April, which is a splendid one, in that the work is new and she was unacquainted with everyone: Number of patients, 20; nursing visits, 44; social visits, 0; business visits, 0; surgical cases, 0; tuberculosis cases, 3; Metropolitan cases, 16; paid visits, 11; patients taken to hospital, 1; had, 0; dismissed patients, 10; number of rural homes visited, 3; clothing distributed to one family; railroad fare paid for a mother and two children to Tennessee.

WOODFORD STOCK FARM

SEASON 1918 STERLING CHIEF 2079

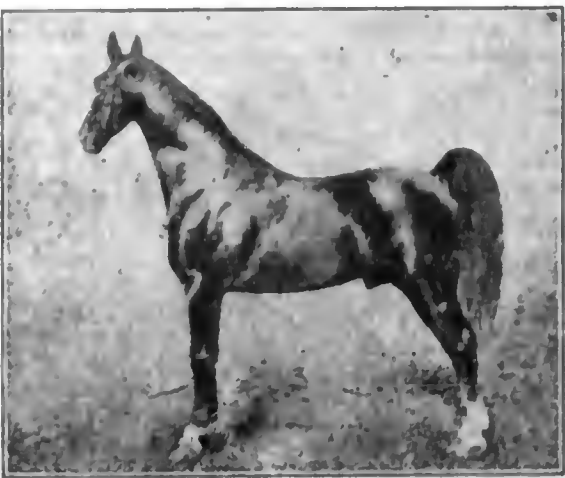

Will make the season of 1918 at Woodford Stock Farm one mile South of Mt. Sterling, Ky., at

\$15 to insure a Living Coll.

This horse is ideally bred, being by Bourbon Chief 976, dam Jessie Lee 113, by Forest Denmark 153, who has over fifty colts to his credit that sold for an average of over \$500.00 each. Second dam by Blue Jeans 3. As an individual Sterling Chief is what a stock horse should be: Fine, plenty of type and finish, good size, 15 1/2 hands high, weight 1150 pounds, splendid bone and foot, action absolutely straight and true in all five gaits, perfect disposition and a natural tailed horse, this feature being of importance to breeders, having never been worked on in any way. Color, rich dark chestnut.

As to his produce he has sired seven that brought an average of \$1357, and an indefinite number that sold for four or five hundred. His colts mature into the right kind for using horses as well as for show, as they have intelligence and can quickly be made into either driving, combined five gaited or running-walk horses. She who despises her family's respect has already deserted the virtues that deserved it.

German hospitals are said to be wholly inadequate for the constant strain of wounded soldiers from the western front. All available buildings in western Germany are being converted into shelters, and the number of the wounded brought from the front is three times as great as had been expected. Soldiers of the democracies of the world are making the Kaiser pay. His armies must be beaten in the field; the Kaiser must abdicate; the house of Hohenzollern must be completely destroyed. Then peace—lasting peace—will surely and quickly follow.

IS AMERICAN CHRISTIAN?

We speak of America as a Christian country, but is your Christianity a thin veneer of complacent custom or does it strike deep to the very core?

A child is dying of hunger at your door. Do you give it food and shelter and raiment?

Another is being beaten and bruised shamefully maltreated. Do you stretch out your arm to protect and save?

No, these things are not being done at our very door, but multiplied a thousand fold, they are being every day in that sorely stricken land of Armenia.

Whole villages depopulated, women and children, dead of starvation lying unburied in the streets, others, mere skeletons, fighting for the veriest carrion and offal with which to keep life in their bodies.

All this is in Bible lands and in the country which as a nation first accepted Christianity and which amid unparalleled persecution, has maintained an unbroken church

through all the centuries. What will you do about it?

"Pure religion and undefiled before God and the Father is this. To visit the fatherless and widows in their affliction."

"But whose hath this world's goods and seeth his brother in need, and shutteth up his compassion from him, how dwelleth the love of God in him?"

"Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me."

Four million people are utterly dependent upon America for relief. They are dying daily. How many shall die because you are indifferent?"

Five dollars a month will save a life. Stretch out your hand before it is too late.

Make your remittance at once to John J. Davis, 903 Realty Bldg., Louisville, Ky., or to Cleveland H. Dodge, Treasurer, 1 Madison Ave., New York, N. Y.

The wounded British and Canadian soldiers who are here to give at first hand personal proof of what the Red Cross is doing for the comfort and care of the allied forces are making a deep impression on their audiences and arousing enthusiasm in the cause to the white heat. No one can hear their recitals and not feel better for his kind, with an increased desire to aid the self-sacrificing men and women "over there" to the extent of his ability and to sacrifice for it if needs be.

—W. S. S.—

It is admitted that the Kaiser has sacrificed the lives of two hundred and fifty thousand of the bravest of his soldiers since the Spring offensive began. It is admitted that 250,000 of the picked men of his troops have been wounded in action. France is the slaughter house of the world. The Kaiser made it so. He is the archangel of murder and rapine.

The people who get the greatest amount of good out of their telephone are those who talk over it as though face to face.

Courtesy smooths out difficulties and promotes the promptest possible connections.

The operators of the BELL System are trained to be patient and polite under all circumstances, but they will do better work if they meet with patience and politeness on the part of the telephone users.

The fact that you cannot see the operator or the other party should not cause you to overlook this. The best results come through the practice of mutual courtesy.

THE RED CROSS DRIVE

The second Red Cross Drive to raise our quota of ten thousand dollars will be launched at once and we are informed it will be conducted strictly along business lines. That is, the ten thousand dollars needed will be apportioned among our citizens in proportion to their ability to contribute. This apportionment will be made impartially and by men well informed as to property values. Of course, if any one is assessed too high, or too low, it is up to him to say so honestly and frankly. Fortunately little needs to be said as to the incalculable value of the Red Cross work in relieving human suffering and saving lives upon the battle fields of Europe. At the head of this great organization are men whose honesty of purpose and business ability cannot be questioned. It therefore properly resolves itself into a simple business proposition. We therefore hope our people will respond quickly and ungrudgingly to this call, which, in our judgment, is in behalf of the most noble work in existence today.

The idea of Mayor McKee to require automobiles to park about the Court House in "stalls" is a fine one and will do much to relieve congestion, especially on narrow streets.

All honor to Miss Mary Bradley of the good county of Scott. It's a pity our entire citizenship is not one hundred per cent. American.

ALLEN MAKES FINE ADDRESS

Col. John R. Allen, of Lexington, made a most touching and patriotic address at the Tabb Theatre in this city Sunday afternoon to a crowd that filled the entire house. Mr. Allen was introduced by Mr. T. J. Birstaff. Mr. Allen paid a splendid tribute to our boys in the army and navy and a beautiful tribute to President Woodrow Wilson. The Red Cross drive that is to soon start here was greatly helped by this splendid speaker and renewed life, vigor and vim was injected into the workers by this splendid address.

SENT TO LONDON

Capt. Simrell Wyatt, well known physician of Lexington, and a member of Dr. Barrow's Unit, has been selected to go to London to take special training under several great surgeons. Dr. Wyatt who is a son of Mr. L. B. Wyatt, was born and spent his early life in this county, but his parents moved to Alabama during his early childhood. His selection from a large number of physicians for this important work was quite an honor. Dr. Wyatt is widely connected in this section.

RETIREES ON PENSION

Mr. James H. Wood will shortly retire as agent for the Adams Express Company in this city. Mr. Wood has been connected with the company for thirty-six years and retires on a pension. His retirement on a pension is a just recognition of his long and faithful services. "Jim" Wood is known to every man, woman and child in the city and his many acts of kindness and courtesy to the patrons of the express company has won for him a place in their affections. While working often under adverse conditions he has always rendered the best service he could to the public. Should he engage in any other line of endeavor he will have the best wishes of everyone. As yet his successor has not been appointed but it is rumored that Mr. Claude Paxton of Huntington, formerly of this city, will be appointed to the position. Mr. Paxton's many friends hope he will secure the place.

The Past and The Present

In the Past our ancestors were content to use the candle with its dim, flickering rays.

In the Present (Today), we are privileged to use the steady, brilliant electric light—the product of science.

In the Past thousands of people went thru life suffering from ailments that seemed to be incurable.

In the Present (Today), thousands of people are finding out that these same ailments yield readily to Chiropractic—the modern scientific method of removing the cause of disease.

In the Past the idea, a mistaken one, was to try and cure the effect without making any effort to find the Cause.

In the Present (Today), the Science of Chiropractic strikes right at the root of the matter, adjusts the cause and nature, the Great Healer, is given the opportunity to make the cure, nature never fails in this task.

The following are but a few so called diseases that respond readily to adjustments: Appendicitis, Asthma, Biliousness, Constipation, Deafness, Eye Troubles, Epilepsy, Fevers, Female Diseases, Gout, Gallstones, Heart Trouble, Headache, Hay Fever, Catarrh, Insomnia, Jaundice, Kidney Trouble, Lung Trouble, Lumbago, Neuralgia, Nervousness, Paralysis, Quinsy, Rheumatism, Stomach Trouble, Skin Eruptions, Throat Trouble, etc.

SPLENDID WORK DONE

The Baptists of the South are rejoicing over the magnificent offerings for the current expenses of the work of Home and Foreign Missions for the year which closed April 30th. These totaled nearly \$1,600,000 which was almost \$100,000 more than was asked for but which can be used to advantage in the camp work among our soldier boys here and in France. The Woman's Missionary Union's apportionments were fully met and in addition they gave \$10,000 extra for Foreign Missions, \$2,000 extra for Home Missions and \$1,500 extra for the new building for our Woman's Missionary Union Training School, located at 334 E. Broadway, Louisville, Ky. This building was completed last fall at a cost of \$150,000 and is to be dedicated with appropriate exercises on May 22nd.

Now Is the Time to Look to Your Purchasing Knowledge

Never since the olden days of Chatham street and the Bowery have things been so critical. In the olden times you had to watch the trader, but in these war days you have to watch time.

As times goes on prices go up and stocks on hand are gradually diminished and the goods to come are higher in

SHEEP SHEARING BEGUN

Sheep men have begun to shear the sheep in this and adjacent counties and the outlook for a fine crop of wool is excellent. Many of the fleeces will weigh heavy and there is every reason to expect a big yield of wool this year. Little of the wool has been sold, some having been contracted for at 75 cents last year, but sheep men are now talking about the price going up to \$1.00 per pound. Lambs are doing well and growing rapidly and many of them will be ready for June shipment. Prices are high, and raisers are asking 15, 16 and 18 cts. per pound. Few have been purchased. The city market indicates high prices.

PRESIDENT WILSON MAKES PLEA FOR RED CROSS

President Wilson as the executive head of the nation and of the Red Cross has issued a proclamation calling upon the people to contribute generously to the second Red Cross War Fund of \$100,000,000 for the alleviation of suffering of the American troops in France, their dependents at home and for the urgent necessities of our allies who have borne the brunt of the war. This appeal will fall on willing ears. The Red Cross is recognized by law and international convention as the public instrumentality for war relief and the people are realizing how great the work the organization is doing for the soldiers and in binding up the broken places in the war stricken districts.

Mr. Oscar Moss, of the county, has sold to Mr. Jackson D. Stoffer and his sister, Mrs. Harry B. Ringo, of this city, his farm containing 100 acres and lying on the Camargo pike, for a consideration of \$15,500. Possession will be given May 15th.

THE Y. M. C. A. ON THE BATTLE FRONT

In their fight against the Kaiser, American soldier boys under shell fire in France are being given all possible comforts and assistance, according to an announcement just received here from the National War Work Council of the Y. M. C. A. At the present time there are more than 250 American Y. M. C. A. secretaries under shell fire. These men have been with Pershing's troops from the time they landed on foreign soil.

A total of \$5,000,000 is being expended monthly by the Army Y. M. C. A. in its work for the American troops at home and abroad. There are 2,500 Y. M. C. A. workers in France and England and 3,000 in American camps.

Because of the increasing need for men in this service and the force necessary to operate the entire canteen system in France, efforts are being made to enroll at least 1,000 more business and professional men of high standing who are willing to go to France for every kind of Y. M. C. A. service before July 1.

It is estimated that 8,000,000 feet of film are being exhibited weekly to the soldiers at home and abroad. A recent shipment of athletic equipment for the troops in France consisted of 79,680 baseballs, 19,000 bats, 10,000 gloves and mitts, boxing gloves, volley balls, and various other kinds of apparatus for promoting the play spirit among the troops in their leisure hours.

The Y. M. C. A. has established a chain of huts and dugouts along the front lines occupied by American troops "over there" and is meeting the needs of the Sammies as they take their places alongside their allies. The Y. M. C. A. huts on the Russian front have been demolished by German guns and the 150 secretaries there have retired before the advance of the Huns and are now established in Siberia awaiting an opportunity to return to Russia.

HOG BRINGS \$500

Mr. Hughes Atkinson, of this county, sold recently to John R. Lewis, of Rensselaer, Ind., his Hampshire boar, Kentucky's Best, for \$500.00, the highest price ever realized for a hog in Montgomery county. Kentucky's Best is 3 years old and was bred and raised by Mr. Atkinson. He was sired by Walker Boy, a litter mate to Lookout, for whom F. M. Silver, of Iowa, paid \$5000.00. Mr. Lewis, who owns over five hundred head of pure-bred Hampshires, will fit Kentucky's Best and show him at all the big Western Fairs in 1918. He stated that he had been over Illinois, Indiana, Missouri, and Iowa, looking for a hog to show and head his herd, but said that he found nothing to compare with Kentucky's Best, which he said was the best Hampshire boar in the United States. The sale of this boar was a big feather in Mr. Atkinson's cap as a breeder and we hope that he will make many more sales of hogs at larger figures. Mr. Atkinson shipped to Santa Barbara, Cal., Tuesday three nice gilts that were sired by Kentucky's Best, for which he received good prices.

Any doctor will tell you that the ingredients of Vinol as printed below contain the elements needed to improve the health of delicate children and restore strength to old people.

By Cod Liver and Beef Peptides, Iron and Manganese Peptonates, Iron and Ammonium Citrate, Lime and Soda Glycophosphates, Casein.

Those who have puny, ailing or run-down children or aged parents may prove this at our expense.

Besides the good it does children and the aged there is nothing like Vinol to restore strength and vitality to weak, nervous women and overworked, run-down men.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our faith in your protection. Millions of people have been convinced this way.

NOW FOR THE REAL TEST

Now comes the real test of patriotism and love of humanity. There was no especial demonstration of either in the purchase of Liberty Bonds, which are as good as gold, pay a fair interest, and are non-taxable. Investment in them was more of a proof of business sagacity and self interest. But when a man goes down into his pocket and gives to the extent of his ability to the Red Cross, he does so without hope of financial return and solely to save and succor the brave lads who are offering their lives to make the world fit to live in and help the war ridden country devastated by the Huns. To carry on the work that is the admiration of the world and add to its scope and efficiency the Red Cross workers in Europe need \$100,000,000 and Kentucky has been asked to give \$900,000 of it. That she will respond with whole heartedness is assured. Let everybody give no matter at what sacrifice.

Public Notice!

There has been an inclination of citizens of Montgomery county and Mt. Sterling to exceed the amount of flour allotted under the Food Act. The law allows 6 pounds per month for each member of the family, and some citizens are using practically double that amount, it is reported. Merchants have been embarrassed by having to refuse customers, and this notice is given to those who have been violating the law and to all others, that any violations of the law reported to me will be turned over to the Federal authorities for prosecution.

DRUMMER WAS IN TERRIBLE CONDITION

Says He is Much Better Now After Taking Vin Hepatica

"You can go the limit in saying what you please about me," says D. M. Bowers, a well-known Nashville salesman, to the Vin Hepatica expert. "I am so much better off than I ever thought I could be after the awful experience I have had for years with my stomach. I was in such a terrible condition that I just couldn't hold anything on my stomach. Nothing would satisfy me. I suffered so terrible at times that I almost wished I didn't have a stomach. But I want to say to you right now that Vin Hepatica has so completely relieved me that I can eat anything without the least fear of it upsetting my stomach."

"And if anybody asks you," said he, at the Arcade Drug Store, "what I think of Vin Hepatica, you can just go to the limit. Anything that will do a fellow as much good as Vin Hepatica did me in my almost unbearable condition is worthy of the highest praise that mortal tongue can give it." We strongly recommend this great Nature remedy. Come and get a bottle and try it, on our recommendation. We know it is a real medicine of the highest merit.

Ford

THE UNIVERSAL CAR

Like the regular Ford cars the Ford Model T One-Ton Truck is a real farm necessity just as it is the necessity of manufacturer, contractor and merchant. There is no question about it proving a money-saver right from the start. It is bexiure, turning in a 46-foot circle; has 124-inch wheel base; the regular Ford motor with worm drive—and has proven as economical in operation and maintenance as the Ford Touring Car. The price of the truck chassis is \$600 f. o. b. Detroit. We urge placing orders without delay in order to get reasonably fair delivery. The demand is big—come in and let us talk it over.

The Leonard Cleanable ONE-PIECE PORCELAIN LINED REFRIGERATOR

Can be cleaned in five minutes

You Can't Have Clean Food Unless You Have a Clean Refrigerator—

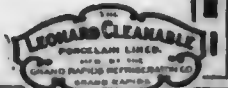

YOU wouldn't of course, eat anything but clean food. Yet food cannot be clean that has been in an unsanitary refrigerator. A bad odor in your refrigerator is always a danger signal.

Zinc or galvanized iron linings for refrigerators are unsanitary. Even though coated with white paint or enamel, they soon get stained and discolored. Worse still, cracks and scratches develop which fill with grease and food particles. Thus germs are fostered causing a most unsanitary condition.

A Leonard Cleanable is made with a one-piece porcelain lining, smooth, pure white, everlasting. Just like a piece of china, except that it is unbreakable. This porcelain you cannot possibly scratch, not even with a steel knife blade. It has no cracks or crevices in which grease or germs may collect. It is as clean as a china dish and as easily kept clean. Notice how the Porcelain Lining of the door is made in one piece. Look for the trade-mark shown below.

For your family's sake, learn about the Leonard Cleanable. We want to tell you its many good qualities. Call and get an interesting booklet, "The Care of Refrigerators." It contains many good points you ought to know.

If Swift & Company Made No Profit

The cattle raiser would receive only ⅓ cent a pound more for his cattle

So small is Swift & Company's profit on any single transaction that if it were turned over to the cattle raisers of the country, they would receive only ⅓ cent a pound more for cattle than they receive now.

Swift & Company pays for live cattle about 90% of the amount received for dressed meat and by-products. The remaining 10% pays for packing-house expense, freight to market, operation of distributing houses and profit. Swift & Company's actual figures per head for 1917 on over two million cattle were as follows:

Receipts	Payments	Profit
From By-products \$24.00 26%		
From Meat \$68.97 74%		
Total \$92.97		
	Paid for Live Cattle \$84.45 91%	
	Total \$92.97	

*This net profit of \$1.29 per head averages ⅓ cent a pound live weight.

And out of this small net profit dividends must be paid to shareholders.

"LET HIM LIVE"

(Author Unknown)

As long as the flowers their perfume give,

So long I'd let the Kaiser live,

Live and live for a million years

With nothing to drink but Belgian tears;

With nothing to quench his awful thirst

But the salted brine of a Scotchman's curse.

I would let him live on a dinner each day,

Served from silver on a golden tray,

Served with things both dainty and sweet,

Served with everything—but things to eat.

I would make him a bed of silken sheen,

With costly linens to lie between,

With covers of down, and filets of lace,

And downy pillows piled in place;

Yet when to its comfort he would yield,

It would stink with the rot of the battlefield,

And blood and brains and bones of men

Should cover him, smother him, and then—

His pillow should cling with the rotten clay—

Clay from the grave of a soldier boy;

And while God's stars their vigils keep,

And while the waves the white sands sweep,

He should never, never sleep.

And thru all the days—thru all the years,

There should be an anthem in his ears

Ring and singing and never done

From the edge of light to the set of sun,

Moaning and moaning, and moaning wild

A ravaged French girl's bastard child.

And I'd build him a castle by the sea,

As lovely a castle as ever could be,

Then I'd throw him a ship from over the sea,

As fine a ship as ever could be,

Laden with water cold and sweet,

Laden with everything good to eat,

Yet scarce does she touch the silver sands,

Scarce may he reach out his eager hands—

Then a hot and hellish molten shell

Should change his Heaven into Hell.

And tho he'd watch by the wave-swept shore,

Our Lusitania would rise no more.

"No Man's Land" where the Irish fell,

I'd start the Kaiser a private Hell,

I'd jub him, stab him, give him gas

And in each wound I'd pour ground glass;

I'd march him out where the brave boys died,

Out past the lads he crucified.

In the fearful gloom of his living tomb,

There is one thing I'd do, before

I was thru—

I'd make him sing in a stirring manner

The wonderful words of "The Star Spangled Banner."

Train Yourself To Keep The Wheels of Industry Moving

All you energetic and patriotic young men and women—who are determined to go forward in life—straight forward—and we can tell you by the sudden set of your shoulders—we have a vital message for you.

YOU DESIRE TO GROW—Whether you are a wage earner, student in high school or college or a prospective worker, in office, in school or at home, you are potentially a wage-earner; that is you are either a wage-earner in actual practice, or one in the process of making. To all intents and purposes, your life will be under your own guidance; you will make your own money, and spend it as you like; you will set your own standards of living, and rise or fall below it, as your energy or your indolence dictates. Economically independent, the responsibility of your life will rest on your shoulders. You are to be that finest thing, a self-supporting man or woman, making your way by no man's leave, by no man's favor, but by virtue of the power resident in you, the individual.

But in order to reach the best business plans—you must have preparation. You must have business knowledge and training. That is the business of this school—to supply ambitious young men and women with the right kind of preparation and training to enable them to reach and grasp the highest success plans in the business world.

Don't delay in making your start. Begin your preparation the earliest moment—We court a thorough investigation of our methods. Just write, phone or call at the school for full information.

We have enrolled over 100 students since the first of January—and the students in our Day and Night Classes attending regularly—number almost 200.

WOODFORD STOCK FARM

SEASON 1918

STERLING CHIEF 2079

Will make the season of 1918 at Woodford Stock Farm, one mile South of Mt. Sterling, Ky., at

\$15 to insure a Living Coll.

This horse is ideally bred, being by Bourbon Chief 976, dam Bessie Lee 1435, by Forrest Denmark 153, who has over fifty colts to his credit that sold for an average of over \$350.00 each. Second dam by Blue Jeans 3.

As an individual Sterling Chief is what a stock horse should be:

Fine, plenty of type and finish, good size, 15 $\frac{3}{4}$ hands high, weight 1150 pounds, splendid bone and foot, action absolutely straight and true in all five gaits, perfect disposition and a natural tailed horse, this feature being of importance to breeders, having never been worked on in any way. Color, rich dark chestnut. As to his produce, he has sired seven that brought an average of \$1357, and an indefinite number that sold for four or five hundred. His colts mature into the right kind for using horses as well as for show, as they have intelligence and can quickly be made into either driving, combined five, gaited or running-walk horses. SPLENDID EXAMPLE

SET BY LITTLE GIRLS

Many grown people would be put to shame could they see the work being done by the little girls in the fifth grade of our city school, for the suffering Belgian children.

Under the supervision of their capable and splendid teacher, Miss Alice Cassidy, they are assisting the members of the Women's History Club in sewing for the Belgian Relief Work. They have made a number of garments that are equal in workmanship to any made by the grown-ups, besides furnishing the material and making up some excellent garments as their own contribution.

The energetic way in which these little ladies are trying to help relieve distress is very commendable, and should make their elders very proud of them.

ORIGIN OF RED CROSS EMBLEM

In answer to inquiries frequently made, as well as to correct an impression regarding the original significance of the symbol that appears to prevail in some quarters, the following facts concerning the adoption of the Red Cross emblem are presented:

The Red Cross was founded through a diplomatic convention held in Geneva, Switzerland, in 1864. The treaty of Geneva or, as it is sometimes called, the Red Cross treaty, provided for a flag for hospitals and convoys and an arm badge for persons. The design proposed was a red cross on a white ground. This was in compliment to the country in which the congress was sitting, the Swiss flag being a white cross on a red ground. The Red Cross flag, therefore, is the national flag of Switzerland with the colors reversed.

Inasmuch as the cross symbolizes the Christian religion, the idea prevails with some persons who are unfamiliar with the early history of the Red Cross, that the emblem has a distinctly religious significance—that in adopting it the signatories to the treaty had principally in mind the humanitarianism of Christianity. But the universality of the underlying idea, embracing all nations and all religions, divorced it from any such significance. In other words, the particular cross that suggested the Red Cross emblem was heraldic rather than religious.

It is true that the Mohammedan antipathy to the cross in any form subsequently caused Turkish representatives to protest against operating under the emblem, and it was specially provided that the organization in Turkey should have a red crescent for a symbol. But Japan and China have the red cross for an emblem, and all the other countries of the world, in short, recognize it in its true nonsectarian and

non-religious significance.

At a banquet given for the delegates to the original convention of 1864 there was in the center of the table a large piece of confection, representing a fortress with its garrison and sanitary workers, distinguished by the red cross brassard, pursuing their functions. The tower was surmounted by small silk flags of the Swiss Republic and Canton of Geneva, around the central flag, a red cross on a white field, the emblem of neutrality just adopted. After the first toast this flag was taken from its place by the president of the convention, who, turning to the representative of the United States Sanitary Commission, presented it to him as a token of appreciation of the Commission's labors for the good of humanity.

Five million American soldiers are needed in France and 5,000,000 more are needed in American training camps, thus Major General Leonard Wood advises the Senate Committee on Military Affairs. General Leonard Wood is a warrior of vision. Kaiser Wilhelm will surrender after his country has been invaded, his armies destroyed, his navy dismantled and the Allied flags float over Potsdam. This is a men-and-munitions movement, and America must furnish the men and the money and the munitions.

Some Berlin newspapers predict "a new and mighty blow on another part of the front, which will tear a new hole in the already pierced enemy line." This will send another four hundred thousand German soldiers to bloody graves. It will fill the hospitals of Germany with maimed militarists. It will hasten the end of the mad dog of Europe and his merciless commanders.

Excellent Farm and Desirable Home at PUBLIC AUCTION SATURDAY, MAY 18, 1918, 2 O'clock p. m.

As agent for Mr. Campbell Gibson, I will sell at Public Auction, on the premises, at Camargo, Montgomery County, on the above date and at the hour mentioned, his home place where he resides.

The Farm Contains 84 1-2 Acres of Land

Practically all of it is in bluegrass and other grasses. The only part broken up is about 1 and 3/4 acres for tobacco and garden and truck patch. This land lays well, and practically all of it is susceptible to cultivation, and the soil will produce good crops of corn, wheat, rye, clover, etc., and tobacco that has been grown on the place has sold for from \$250 to \$400 per acre readily. The land produces a good yield in pounds as well as a good color, and there is plenty of the land ready for tobacco now. The farm is watered by good never failing spring and pond with portion Brush Creek running through it, and there is a little of Brush Creek bottom soil. The outside fencing is good and the inside fencing will turn stock readily. The farm has a good frontage on the pike, with patent gate and stone pavement leading from the pike through a beautiful and large yard to the main residence, which is practically new and in excellent repair and condition.

The residence was built out of the very best material, has an excellent shingle roof, and stands on a rock foundation. On the first floor of the home is a large and spacious front veranda, beautiful reception hall, delightful and convenient parlor; dining room, kitchen, rear porch, plenty of closets, pantry and meal room. On the second floor there are three excellent bed rooms, which are large and airy, closets for each room; a servants room and a room over the kitchen suitable for a bath room. There is a rear hall from the porch, and a good stairway leading from the front hall to the second story and another stairway leading from the kitchen. There is no better or convenient farm home in the county. Open fire grates in all rooms and chimneys built perfectly out of the best brick and material that could be secured and the entire home is plastered out of the best cement plastering that could be found.

The farm is located right in the heart of Camargo, one of the most thriving sections of Montgomery County, and is close to three churches two stores and the only Consolidated School in the county. Right on a Rural Route and Telephone Line, within five miles of Mt. Sterling, and close to one of the best cattle markets in Kentucky, in a neighborhood that is unexcelled anywhere, there is every reason why the Gibson home should appeal to any buyer. If you are looking for an investment you can make no mistake in buying it, and if you are seeking a home among good people, where there is every chance to make money, secure a good education for your children and have the advantage of churches and of good society, this is a place and a location that should appeal to you. If you are interested, I will be glad to show the property to anyone now; if you wish to see the place, Mr. Campbell Gibson, who resides there will be glad to show you over the place.

The terms of the sale will be one-third cash when deed is made and possession given; one-third due in one year and one-third in two years, the deferred payments to bear 6 per cent. interest and to be secured by a lien on the property until paid.

SUPPLEMENT TO MT. STERLING ADVOCATE

TO WEIGH AND MEASURE CHILDREN

The Government urges that every child in the United States under five years of age be weighed and measured before June 6, 1918.

The results from this campaign will show what the children of the Nation need, if the rising generation is to be free from the physical defects revealed by the draft.

Birth registration will be assured.

The military age of boys will be accurately determined; child labor laws will be better enforced and decisions in delinquency cases will be better made when age is a point. The local unit of the Woman's Council of National Defense, the members of the Woman's clubs in the city and county have responded to this call of the Government and have set apart the week beginning May 19th for the local drive. Mothers are urged to bring their children to the Rest Room to be weighed and measured. Mrs. Wolcott, assisted by committees from the Council and clubs will take charge of the work from 9 a. m. to 5 p. m. throughout the week of May 19th.

WANT Y. M. C. A. WORKERS

A representative of the National War Work Council of the Army Y. M. C. A. is to be at the Baunont Hotel Thursday morning from 9 to 11:30 to hold interviews with men who may consider work with the Army Y. M. C. A. either in the cantonments or overseas. There is an appalling need for workers with both the American and French armies. Twelve hundred men and a month from now until August are needed for work in France, and a considerable number for work in the home land. Rev. Clyde Dunsie is Chairman and Rex Hall Secretary of the local recruiting committee, and will be glad to talk with any man who would consider working with the Y. M. C. A. The visiting representative, Mr. George J. Johnson, will be here for holding further interviews and giving out information.

DRAFT CALL THIS MONTH

Names Will Be Selected By Local Board and Men Will Be Notified Shortly.

The official notification has been received by the local board that Montgomery county will furnish 47 men for the next draft call and that of this number 10 will be called between the 25th and 30th, the others to follow shortly thereafter. As yet the names of those to go have not been selected by the board. There are 72 white and 41 colored men left in Class A-1 and if the agricultural deferment order is still adhered to the city will furnish practically all the men for this call. It is estimated that there are now one million, three hundred thousand men in France, in camp or under call to go into the service by June 1st, and there is every indication that a larger increment will be summoned in June than was summoned for this month and a progressive monthly mobilization will be continued throughout the summer and fall months as the cantonments are expanded. It is expected that the army will reach a full strength of three million within the next twelve or thirteen months. It is possible some officers say that the number will be closer to five than three million.

—W. S. S.—

THE NAVY CALLS YOU

A urgent call for volunteers for the navy for the duration of the war has been issued by the U. S. Navy Recruiting Station for the State of Kentucky, 412 S. 4th Street, Louisville. The nation is now making a drive for 80,000 men to "help keep the road to France open," and land our troops in safety on the other side. Kentucky's quota of this 80,000 has been set at 2,000. These men are needed at once for immediate training and service.

"The navy has every attraction that will appeal to a young man," said Lieut. J. H. Teach, officer in charge of the recruiting station. "A chance for real fighting, an entire lack of monotony, and an opportunity to serve their country in a trade in which they are skilled. I have often wondered why it is that sailors are always happy. In all my experience I have never found any discontent. I think that the reason for this is the fact that men are put at an occupation that they like and consequently at something they do well. They keep happy, do good work, and the nation is served that much better. Every attempt is made to place men in that branch of the service—there are fifty or more different branches—in which the recruit is best fitted by education, training and temperament to succeed.

"Men from 18 to 35 years old are eligible for enlistment in the navy. They must be of good moral character, of sound physique, at least five feet, four inches tall, and weigh in most instances not less

PRESIDENT WILSON ENDORSES CHILD WELFARE DRIVE

The White House, Washington.

To the Secretary of Labor, My dear Mr. Secretary:

Next to the duty of doing everything possible for the soldiers at the front, there could be, it seems to me, no more patriotic duty than that of protecting the children, who constitute one-third of our population.

The success of the efforts made in England in behalf of the children is evidenced by the fact that the infant death rate in England for the second year of the war was the lowest in her history. Attention is now being given to education and labor conditions for children by the legislatures of both France and England, showing that the conviction among the Allies is that the protection of childhood is essential to winning the war.

I am very glad that the same processes are being set afoot in this country and I heartily approve the plan of the Children's Bureau and the Woman's Committee of the Council of National Defense for making the second year of the war one of united activity on behalf of children, and in that sense a children's year.

I trust that the year will not only see the goal reached of saving one hundred thousand lives of infants and young children, but that the work may so successfully develop as to set up certain irrefutable minimum standards for the health, education and work of the American child.

Cordially and sincerely yours,
(Signed) WOODROW WILSON.

LOCALS DEFEAT LEXINGTON

The second baseball game of the season for the local High School was played on Stoll field at Lexington Friday afternoon. The game opened with our boys at the bat and one run was scored in the first inning and Lexington, as the old expression goes, was unable to "equalize" our lads. In the second inning Lexington obtained three runs which were made possible by errors in the infield. Not being satisfied with letting Lexington get ahead the locals rallied across the old plate three times, making the score four to three in the third inning. The game from here on (was characterized) assumed the attitude of a pitchers battle until in the last of the seventh the Morton High boys tied the score. In the tenth inning Lexington had a man on second and third with none out, but owing to the coolness of our boys they failed to score. In our half of the eleventh Hainline and Huls crossed the plate and Lexington failed to score any more. In general the city lads failed to hit, field or play ball in the n class with our boys. But outside of this they were all right. King held the Mt. Sterling boys to 2 hits, while Hainline only allowed 3 hits.
